## SASB Disclosures

This report marks the first year IFF has disclosed under the Sustainability Accounting Standards Board (SASB) standards. We have included the topics and metrics below related to the Resource Transformation sector and the Chemicals industry. We do not claim to fulfill the disclosures for all indicators this year, but we are continuing to evaluate them for the future.

| ТОРІС                         | ACCOUNTING METRIC  | CODE         | CROSS-REFERENCE OR ANSWER  |
|-------------------------------|--|--------------|--|
| Greenhouse Gas                | Gross global Scope 1 emissions<br>and the percentage covered under<br>emissions-limiting regulations   | RT-CH-110a.1 | Emissions, page 38   |
| Emissions                     |  |              | IFF Performance Data, page 100   |
|                               |  |              | IFF operates in jurisdictions where cap-and-trade and other forms<br>of emission-related regulatory frameworks are currently in place,<br>including California and the European Union. In 2019, none of IFF's<br>Scope 1 emissions were covered under these regulations.   |
|                               | Discussion of long-term and short-<br>term strategy or plan to manage<br>Scope 1 emissions, emissions<br>reduction targets, and an analysis of<br>performance against those targets            | RT-CH-110a.2 | Emissions, page 38   |
|                               |  |              | Additional information can be found in our most recent<br><u>CDP Climate Change response</u> .   |
| Air Quality                   | Air emissions of the following<br>pollutants: (1) NO <sub>x</sub> (excluding<br>N <sub>2</sub> O), (2) SO <sub>x'</sub> (3) volatile organic<br>compounds, and (4) hazardous air<br>pollutants | RT-CH-120a.1 | IFF Performance Data, page 100   |
|                               |  |              | Hazardous air pollutants are not material to our operations.   |
| Energy<br>Management          | (1) Total energy consumed, (2)<br>percentage grid electricity, (3)<br>percentage renewable, (4) total self-<br>generated energy  | RT-CH-130a.1 | Energy Management, page 40   |
|                               |  |              | IFF Performance Data, page 100   |
|                               |  |              | Additional information can be found in our most recent <u>CDP Climate</u><br><u>Change response</u> . We have a goal to procure 75% of our energy<br>needs from renewable sources by 2025, and we are a member<br>of <u>RE 100</u> .   |
| Water<br>Management           | (1) Total water withdrawn, (2) total<br>water consumed, percentage of each<br>in regions with High or Extremely<br>High Baseline Water Stress  | RT-CH-140a.1 | Water Management, page 42  |
|                               |  |              | IFF Performance Data, page 100   |
|                               |  |              | Additional information can be found in our most recent <u>CDP Water Security response</u> .  |
|                               | Number of incidents of<br>noncompliance associated with<br>water quality permits, standards<br>and regulations   | RT-CH-140a.2 | We had no significant incidents of noncompliance concerning water quality permits, standards or regulations in 2019.   |
|                               | Description of water management<br>risks and discussion of strategies and<br>practices to mitigate those risks   | RT-CH-140a.3 | Water Management, page 42  |
|                               |  |              | Additional information can be found in our most recent <u>CDP Water Security response</u> .  |
| Hazardous Waste<br>Management | Amount of hazardous waste generated, and percentage recycled   | RT-CH-150a.1 | <u>Hazardous Waste, page 45</u>  |
|                               |  |              | Recycled hazardous waste was not applicable during the reporting period.   |
| Community<br>Relations        | Discussion of engagement processes<br>to manage risks and opportunities<br>associated with community interests   | RT-CH-210a.1 | Risk Assessment & Prioritization, page 51  |
|                               |  |              | Strengthening Local Communities, page 59   |
|                               |  |              | To support open lines of communication and keep a strong pulse on<br>community interests, we take a proactive role in community outreach<br>For example, IFF facilities periodically host "Open Days" in which<br>community members are invited to visit and learn more about our<br>business and experience the flavors and fragrances industry. Open<br>Days are also opportunities to promote and share more information<br>about our sustainability programs and other topics of interest to<br>the community. |

Additional information about how we contribute to healthy communities can be found on our <u>Sustainability webpage</u>.

## Appendix

| TOPIC   | ACCOUNTING METRIC   | CODE         | CROSS-REFERENCE OR ANSWER  |
|---|---|--------------|--|
| Workforce<br>Health & Safety                                      | (1) Total recordable incident rate<br>(TRIR) and (2) fatality rate for (a)<br>direct employees and (b) contract<br>employees  | RT-CH-320a.1 | Occupational Health & Safety, page 84  |
|   |   |              | IFF Performance Data, page 100   |
|   | Description of efforts to assess,<br>monitor and reduce exposure of<br>employees and contract workers to<br>long-term (chronic) health risks  | RT-CH-320a.2 | Occupational Health & Safety, page 84  |
|   |   |              | Additional information can be found in our<br><u>Global Environmental, Health and Safety Policy.</u>   |
| Product Design<br>for Use-phase<br>Efficiency                     | Revenue from products designed for use-phase resource efficiency  | RT-CH-410a.1 | We have embedded our commitment to circular design across our<br>business. Please note that use-phase resource efficiency is less<br>material for IFF than other product lifecycle stages (e.g., product<br>design and end-of-life phases).  |
|   |   |              | Sustainable Innovation, page 63  |
|   |   |              | Additional information can be found on our <u>Taste</u> and <u>Scent</u><br>webpages.  |
| Safety &<br>Environmental<br>Stewardship of<br>Chemicals          | (1) Percentage of products that<br>contain Globally Harmonized System<br>of Classification and Labeling of<br>Chemicals (GHS) Category 1 and 2<br>Health and Environmental Hazardous<br>Substances, and (2) percentage of<br>such products that have undergone a<br>hazard assessment | RT-CH-410b.1 | IFF has products that have been classified as GHS Category 1 and 2<br>Health and Environmental Hazardous Substances. All products have<br>been evaluated for hazard and assigned hazard classifications as<br>required by law.   |
|   | Discussion of strategy to (1) manage<br>chemicals of concern and (2) develop<br>alternatives with reduced human<br>and/or environmental impact  | RT-CH-410b.2 | Product Responsibility, page 93  |
|   |   |              | Additional information can be found on our <u>Research &amp; Development</u> webpage.  |
| Genetically<br>Modified<br>Organisms                              | Percentage of products by revenue<br>that contain genetically modified<br>organisms (GMOs)  | RT-CH-410c.1 | In Europe, we do not source genetically modified raw materials. In<br>North America and other regions, we source raw materials that may<br>contain GMOs, such as corn or soy. However, given the distinction<br>between "presence" versus "detectable protein," some GM raw<br>materials may not result in the final product being considered GM<br>by regulatory standards due to low levels of detectable GM protein.<br>Because of this complexity, this is a metric that we are continuing<br>to assess. |
|   |   |              | Additional information can be found in our <u>GMO Policy</u> .   |
| Management  | Discussion of corporate positions<br>related to government regulations<br>and/or policy proposals that address<br>environmental and social factors<br>affecting the industry  | RT-CH-530a.1 | Political Contributions, page 90   |
| of the Legal<br>& Regulatory<br>Environment                       |   |              | We seek to ensure that there are no significant differences between<br>our industry lobbying efforts and stated policies and IFF's goals or<br>public positions.   |
|   |   |              | Further information on governmental regulations can be found in IFF's <u>2019 Annual Report</u> (pages 8 and 19-20).   |
| Operational<br>Safety,<br>Emergency<br>Preparedness &<br>Response | Process Safety Incidents Count,<br>Process Safety Total Incident Rate and<br>Process Safety Incident Severity Rate  | RT-CH-540a.1 | Occupational Health & Safety, page 84  |
|   |   |              | IFF Performance Data, page 100   |
|   | Number of transport incidents   | RT-CH-540a.2 | Apart from the incidents reported in the performance data for occupational health and safety, we had no significant operational safety, emergency preparedness and response incidents in 2019.   |
| ACTIVITY METRIC   |   | CODE         | CROSS-REFERENCE OR ANSWER  |
| Production by reportable segment                                  |   | RT-CH-000.A  | What We Do, page 18  |
|   |   |              | Additional information on our reportable segments can be found in our <u>2019 Annual Report</u> .  |
